

AppCircus on Health - Selection Criteria:

All submitted applications will be evaluated by a panel of experts from the health care and technology industry, based on the following criteria:

- Must solve a real user problem
- Must be clinically useful in the health care environment
- Potential impact on target audience
- Quality, accuracy and content of message
- Creativity and originality
- Potential for further development and use
- Must be technologically feasible
- Degree of completion of the app

Please note: it is the responsibility of each entrant to ensure that any information they submit does not infringe the copyright of any third party or any laws.

Make sure you have a good profile of your app on appcircus.com.

The jury will select the 10 apps to present during the event based on your app profile!
